DETAILED ACTION

Information Disclosure Statement

1. Information Disclosure Statement submitted by applicant on 07/11/2003 has been considered. See attached PTO-1449.

Claim Objections

2. Claims 1-18 are objected to because of the following informalities:
The numbering of the steps of the claims is not permitted. Examiner suggest that the sub-numbering in the claims to be deleted (1.1, 1.2, ...etc.) and the dependent claims to refer to the steps of the previous claims instead of a number (such as 1.1, 1.2, ...etc.).
Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 3, 7, 9, 13, and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Asamizuya (US Patent No. 5,793,412).

As per claims 1, and 3, Asamizuya discloses a method for organizing and storing data comprising the steps of: 1.1. receiving a block of data from a data source at a first data storage site; 1.2. maintaining addressing information in a tree data structure for said block of data; 1.3. in response to said block of data not being a final block of data of a group of data, returning to step 1.1; and 1.4. transferring said group of data to a second data storage site, wherein said group of data is a consistent transaction set **[data supplier is being equated to data source (RAM or data from the input I/F); buffer memory 16 is being equated to a first data storage site and mass storage 17 is being equated to the second data storage site (see Figs. 2 and 3); also see Fig. 8 and the corresponding text]**.

As per claims 7, 9, 13, and 15, claims 7, 9, 13, and 15 encompass the same scope of the invention as those of claims 1 and 3. Therefore, claims 7, 9, 13, and 15 are rejected for the same reasons as stated above with respect to claims 1, and 3.

Allowable Subject Matter

5. Claims 2, 4-6, 8, 10-12, 14, and 16-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

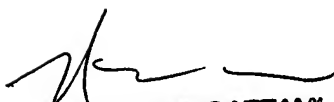

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See attached PTO-892.
